

The screenshot shows the NetBeans IDE interface with the following details:

- Project Explorer:** Shows the project structure with packages like Employee, MathUtil, and MathUtilTest.
- Code Editor:** Displays the `MathUtil.java` file containing Java code for calculating square roots and a main method for testing the calculator.
- Navigator:** Shows the class hierarchy:
 - MathUtil:** Contains methods `add()`, `divide()`, `multiply()`, `subtract()`, and `squareRoot()`.
 - MathUtilTest:** Contains methods `addTest()`, `divideTest()`, `multiplyTest()`, `subtractTest()`, and `squareRootTest()`.
- Output Window:** Shows compilation errors for the `MathUtil.java` file, indicating that the module has been repackaged due to changed source code and listing the specific error lines.
